

## **Tulsa Sports Commission Student Leadership Opportunity**

This is a chance to gain excellent experience in the field of marketing. In the future, I would like to have a career in a marketing related atmosphere, and although my planned career will be faced with a more entertainment based marketing, this conference can give me the first hand experience I will need. A conference of this sort would be a great character-shaping event, and be a life help to my future. The leadership qualities you are offering here will be a once in a lifetime thing. With this kind of leadership training, I could excel in many different aspects of life. This position will also allow me to make a connection between the in class work we do, and real world situations of marketing.

After college I would like to be a part of an entertainment based marketing firm. The leadership that will be needed in a firm of this sort is truly a born quality. I feel that I possess this quality, but I am lacking the discipleship and guidance this conference could provide for me. With the help of these professionals, I could go further than I ever could ever even hope to on my own.

Leadership is crucial in the world we live in. Without it we would all be followers. I want to step up and accept the challenge of being a leader today. I am ready and willing to put forth the effort and become a help to my high school. After this conference, I can bring the qualities I have learned back and apply them here and Jenks High School. Being only a junior this year, I have a whole year left in high school to share what I have learned with my teachers and peers.

I admit I may not be a perfect candidate, but I am a willing one. I am willing to do what it will take to learn these valuable marketing skills. I will not waste this amazing

opportunity. I believe I can make the best of it, and utilize everything that I am taught. Allowing me this position, I can take the fullest advantage of all the things I am given. I realize the chance to be handed this experience is a once in a lifetime opportunity, and I know that I cannot and will not let it pass be by.

So in closing, I am pleased at this opportunity. I want to gain this experience. I want to share all of it with this school afterward. I want to use the information and guidance given to become something great for the school and our sports marketing program. I believe I can use this opportunity to build up Jenks High School. But I could have achieved none of this without your help, of giving me the chance to go. With this chance I can do all these things. I can't wait to get my feet wet in this world of marketing. Thank you for this once in a lifetime chance.
